## Introduction

### With our compliments

This complimentary guide contains habit 3 (of 22) from our Vibrant Health Programme.

The full plan is the culmination of thousands of hours of research, condensed into an easy-to-use format of simple daily habits.

Habit 3 is entitled ~ **Intermittent Fasting**.

**This will naturally trigger multiple health benefits.**

From weight loss/management, boosting your immune system, increasing longevity to improving your gut health, the benefits just keep on coming.

Think **disciplined eating to stimulate multiple health and wellbeing** benefits 😊.

We sincerely hope you get lots of value from this information and start using it immediately.

On behalf of myself and David, we wish you the very best of future health & happiness,

*Stephen Kirkbride*

Health & Wellness Mentor, Nutritionist, Healer,  
Psychic Medium and Numerologist.

This is **David** btw 😊

### Disclaimer

All the information and recommended action steps provided in this publication are with the sincerest intentions to genuinely help and inspire you to enhance your health and general wellbeing. It is the culmination of thousands of hours of research into published medical studies and health/wellness/success related publications. The authors accept no liability for the results of any actions the reader takes following the information contained within. We strongly advise you to do your own research prior to adopting any of the suggestions and consult a medical, health or competent professional if in doubt with any aspect of it.

## Understanding What You Are?

**This section is crucial to help you get the most from the programme by understanding what you really are (energetically).**

The complimentary habit information starts on page 15; however, we highly recommend you read the preliminary sections (pages 4 – 13) to fully understand the 'bigger health picture' to get the most out of this guide.

### Spiritual beings

You may or may not know that you, me, and every other human on the planet are magnificent spiritual beings having a series of human experiences.

### Why, you may ask?

In a phrase... '**soul evolution.**' You like everyone else, chose to be the person you are, along with the path you are currently on in this lifetime, as you knew it would present you with the lessons and challenges that your soul needs to allow it to evolve further.

Most people at this point usually say to me *"If I had a choice, I'm pretty sure I wouldn't have chosen this body and this life!"* 😊

I can assure you that you and everyone else, consciously chose (whilst in the spiritual realm) their current life before they were born. Now unless you are drawn towards the study of spiritual or philosophical pursuits, the chances are you could easily think life is just random and a one off.

To help you put things into perspective, here's a brilliant bit of wisdom entitled 'the rules for being human'...

**1. You will receive a body.**

*You may like it or hate it, but it will be yours for life.*

**2. You will learn lessons.**

*Life is a constant learning experience and everyday provides opportunities to learn lessons.*

**3. There are no mistakes, only lessons.**

*Your development towards wisdom is a process of experimentation, trial, and error. Compassion is the remedy for harsh judgement of ourselves and others. Forgiveness is not only divine, it's also 'the act of erasing an emotional debt'.*

**4. A lesson is repeated until learned.**

*A lesson will be presented to you in various forms until you have learned it. What manifests as problems, challenges, irritations, and frustrations are more lessons? They will repeat until you learn them, then you go on to the next lesson. To blame anyone or anything else for your misfortune is an escape and a denial; only you are responsible for you and what happens to you.*

**5. Learning lessons does not end.**

*While you are alive, there are always lessons to be learned. Surrender to the rhythm of life, don't struggle against it. Be humble enough to always acknowledge your weaknesses and be flexible enough to adapt from what you've been accustomed to.*

**6. "There" is no better than "here."**

*When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."*

**7. Others are merely mirrors of you.**

*You cannot love or hate something about another person unless it reflects something you love or hate about yourself. Be tolerant; accept others as they are and strive for clarity and self-awareness. Strive to truly understand and have an objective perception of your own self, your thoughts, and feelings.*

**8. What you make of your life is up to you.**

*You have all the tools and resources you need. What you do with them is up to you. Take responsibility for yourself. Learn to let go when you cannot change things. Don't get angry about things.*

**9. Life is exactly what you think it is.**

*You create a life that matches your beliefs and expectations. You get what you think about and dwell on most of the time, it is a precise universal law called the 'Law of Attraction'.*

**10. Your answers lie inside you.**

*The answers to life's questions lie inside you. All you need to do is trust your instincts and your innermost feelings, whether you hear them as a little voice or a flash of inspiration.*

**11. You will likely forget all this...but you can remember it whenever you want 😊.**

These universal truths apply to every single human being and are a wonderful little guidance system to keep reminding us of who we are and how it (life) works.

We have also added it to the annex at the end as a single page if you wanted to print it off and have it as a regular reminder of the rules of life!

Let's go deeper...

**Everything is just energy**

Here's a little bit of science which is also important to understand (to lead us into the health stuff); everything in the universe is just energy vibrating at a certain frequency and that includes us as human beings.

Although the body you are sat in, appears to be physical flesh and blood (we are actually 70% - 75% water), if you viewed it under a powerful enough microscope you would see at a certain level, you are simply trillions of atoms vibrating.

Away from the microscope, you appear to be solid. This is the same with any seemingly solid object, it too is just vibrating atoms that give the appearance of solidity to our senses.

## **We are all born as high vibrational beings**

When we are born, we have the pureness and high vibrations of a new body and soul just beginning its journey. This is the beauty of nature and evolution at work and if you were to measure the frequency, it would be very high indeed.

This is why we are all energetically drawn to new-born babies and small children because they are in a state of high vibration. It is the same for young animals, think puppies or kittens, they're adorable.

You could say every birth is a miracle of nature as each new-born has gone through a natural gestation and incubation period before entering the world independently.

## **Homeostasis**

This high vibrational, optimal state is known as homeostasis, it is the default healthy setting of the body. As long as we have decent habits and generally nourish the body, it should stay in the high vibrational state of homeostasis.

Unfortunately, the vibrational state starts to diminish if we're not careful 😞.

## **The PROBLEM....**

***Modern day life is slowly poisoning us (if we allow it)!***

Whether we like it or not, modern life in the western world particularly, is not conducive to good health, we're negatively bombarded from many directions which starts to lower our vibration and vitality.

The list is long but here are the common ones:

- Processed food
- Food additives (MSG, High fructose corn syrup, aspartame)
- EMF radiation (Wi-Fi, smart metres, devices)
- Air pollution
- Anxiety/Stress/Fear/Negativity/Guilt/Shame
- Vaccinations
- Prescription medication

Each element above has the effect of lowering your vibration and subsequently your health and vitality.

Making a conscious effort to reduce these effects and adopt habits to raise your vibration is the key. More importantly, all the good habits we're suggesting you do, will help do this for you 😊.

## You could also join a tribe for this!

If we all lived in the wild like indigenous people do, we wouldn't need to give health a second thought as we'd instinctively live-in harmony with our surroundings. We'd only ingest natural foods and be away from vibrational lowering foods, devices, and environments.

Tribes people just don't suffer from every day stress/fear/anxiety...hmmm!

## Solution

As we're living in the modern world with many things lowering our natural vibration (which has the potential to lead to multiple potential health problems), we can mitigate this by adopting the right actions which naturally raise our vibration and health.

And we simply do this until these actions become fixed habits, then it's plain sailing 😊.

## Adopting the Right Mindset

Good health is **always** your number 1 priority in life!

### Here's why....

When David and I are giving health presentations, we ask the audience if they could have anything they want (and money is no object), what would they choose?

We usually get replies such as, a large mansion, a super yacht, huge log cabin in the woods, handsome rich partner etc.

We then point out that to fully enjoy any of it, the most important thing of all is to have good health. Of course, you can still have some enjoyment whilst in poor health but to fully enjoy anything in life, being in good health is essential and why it is your number 1 goal in life.

When your health is good, you feel good, your life flows much easier  
and everything is more enjoyable 😊

As my spirit guide Qual says, **“What does your wealth look like, without your health?”** to emphasise the importance of prioritising your health.

### Formula 1 racing car analogy!

I want you to start thinking of your body as though you were operating a high-performance formula 1 racing car.

- To get the best performance out of it you would only put in quality petrol, oils, and lubricants.
- You would make sure you understood how to get the best out of it and drive it accordingly.
- You would only drive it in suitable environments and take special care of it to make sure it always operates with a high performance. You would look after it!

As busy humans, we tend to put any old petrol in it (junk food), never really bother to read the manual to fully understand how it works (life is far too busy!) and we don't really pay much attention to it, until something starts to go wrong (Dr will fix it with a prescription!).

That tends to be the reality of modern life for a lot of people 😞!

### Let's talk about FEELING GOOD 😊

We've established that good health is always your number 1 priority in life.

A natural consequence of good general health and wellbeing is **feeling good**. When you feel good, positive, and happy, your vibration rises, and life becomes much easier and that's what this whole programme is about.

Each habit will incrementally raise the vibration of your body each time you do it. You will feel good each time you do a recommended action, sometimes its subtle, sometimes it's obvious, sometimes it's exhilarating, as you'll see 😊.

There'll be a combination of physical, emotional, and psychological wellbeing benefits. The more you do them, the better it is for your general health and the better you'll feel good.

## Complete Health & Wellbeing Models 1 & 2 - IMPORTANT

When it comes to health and wellbeing, most people predominantly associate it with their physical body and their mental state of mind.

Our own philosophy is that we actually have **8 specific areas of health** (YES 8!) which we all need to continually nurture for complete health and wellbeing.

We use 3 visual images (models) to help you understand how it all fits together, here are the first 2;

### Model 1 ~ Your 8 Health Buckets

The image on the following page is our own model that represents the 8 areas, each area is depicted by a bucket that has a very small but continual leak at the bottom.

*It's obviously metaphorical, working on the basis that each bucket holds the water that lubricates and makes each of your 8 key areas run smoothly and healthily. However, each bucket slowly leaks and will eventually drain dry if neglected.*

*Your job is to continually pay attention and nurture all 8 areas (i.e. keep topping up with water) using the recommended actions/habits, to maintain good health and wellbeing.*

*If you neglect any bucket(s), a part, or parts of you will eventually be running on empty and potentially start to create health problems/issues.*

Each of the recommended habits in this programme enhances at least 1 primary bucket and also enhances multiple secondary buckets.

We'll point this out within each habit, so you fully understand the combined benefit for each action/habit that we recommend.

We'll also add the '8 Health Buckets' image below to the index at the end of this manual so you can print off as a visual reminder (highly recommended) if you wish.

Let's delve further into each bucket and zone...

**The Tangible Zone** (these are external to a degree, and what others can see)

1. **Physical health** ~ the most obvious one, all the essential habits (1 – 11) will help you take very good care of this.
2. **Financial health** ~ we only touch on this one directly with 1 habit (habit 22). It is obviously very important to nurture and look after your finances as we all live in world where we need money to live and thrive.
3. **Vocational health** ~ this is very important indeed, yet so often neglected. It can be your occupation and/or your passion(s) related to your highest values (habit 15 will help you establish your values). Your true vocation in life is what your soul longs to do, an inner urge and therefore it has a strong connection to your spiritual health. If you are doing what truly inspires you in accordance with your highest values, that is your main spiritual path in this lifetime.

It is important that what you do as your vocation (could be main job, secondary business, or hobby) gives you fulfilment, otherwise you can end up suppressing your life away, if you are just doing it for the money. If you are not fulfilled with your main job, you need to look at moving towards a vocation (you can start it part-time) that you would love to do, which is in accordance with your highest values.

It may take some time and planning (baby steps at first) to get there, but it will fill you with energy, enthusiasm, and joy when you align this part of you (neglecting this part is why so many people are lost and unfulfilled and dread Monday mornings!). When you're in tune with your vocational health, your emotional and mental wellbeing and fulfilment, will go through the roof 😊.

**The Feel-Good Zone** (The most important zone, the heart ❤️ of the operation, when you nurture and balance these 2 areas, you will **feel very good** about yourself and that is the number one aim of this whole programme).

4. **Emotional health** ~ this is how you feel at any given time and is the most important bucket of all 8. Every single one of the 22 habits will enhance your emotional health and make you feel that little bit better each time you do it. Habits 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your emotional health. With practise, they will get you feeling good all the time and that's when the magic happens 😊.
5. **Mental health** ~ this is how you internally see yourself and affects your confidence, self-esteem, and self-worth. It is the second most important bucket after emotional health and positively links to all 22 habits. Similar to emotional health above, habits 12, 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your self-image and confidence and make you feel really good about yourself.

When your **emotional and mental health** are in great shape, everything else will fall into place much more easily.

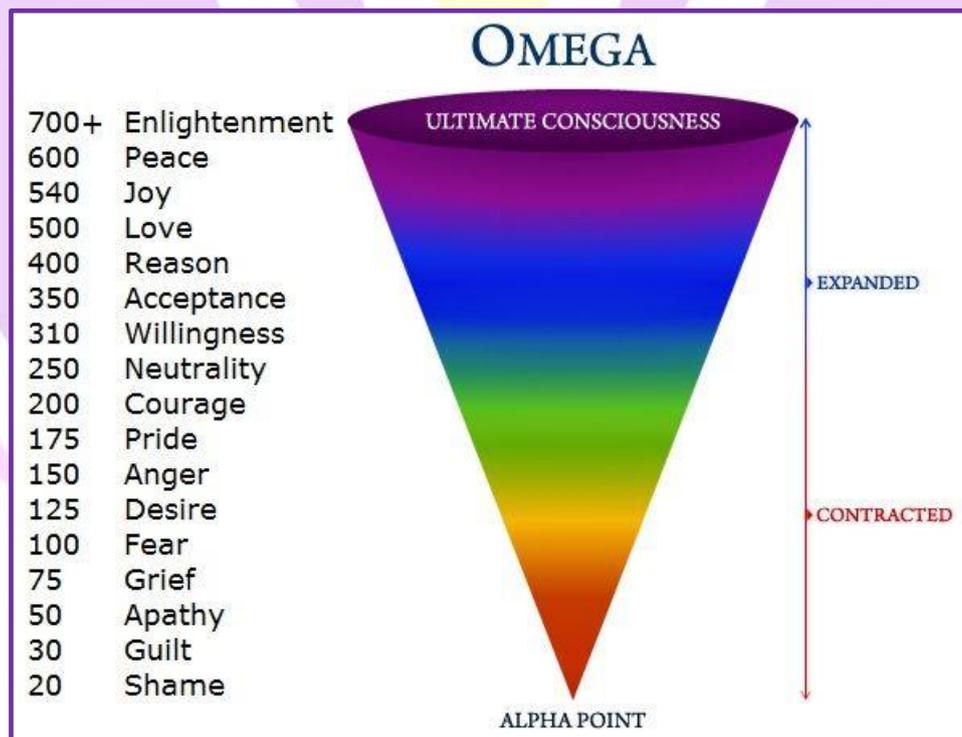

**The Connecting Zone** (as humans, we intuitively want and need to connect with others).

6. **Divine Sexual health** ~ this one isn't exclusively about sex with a partner, it applies to everyone and is about connecting to your divine creative power released through orgasm. It is about tapping into the glorious elixir of life and bathing in the divine life nourishing energy that creates everything in the universe. It is highly recommended to connect regularly with it (regardless of if you are in a relationship or not), habit 11 will help you fully understand and take care of this. You'll learn how it relates to the Emotional Vibration Chart (model 2) in a significant way.
7. **Social/Family health** ~ We all have a deep human need to feel wanted and accepted by other humans. Having a social circle of friends, work associates, like minded advocates and close family bonds are all important for your mental and emotional wellbeing. It is important to regularly connect and nourish these relationships to feel complete as a human being. Habit 21 will help you with this.
8. **Spiritual Health** ~ As the saying goes "for what profits a man if he gains the whole world and loses his soul?" Understanding you are a spiritual being having a human experience and acknowledging/connecting with a higher power is very important indeed for your spiritual health and your integrity as a human being.

**Also...**to feel genuinely fulfilled with your life, your spiritual health needs continually nurturing. Having a higher purpose/vocation (in line with your highest values) with the intention of benefitting fellow human beings and advancing humanity in some way (no matter how big or small), is nourishing for your soul and spiritual health. Taking care of your spiritual health will also help to keep you grounded and more fulfilled, habits 9, 12 – 15 and 17 - 21 will help you with this.

### Model 2 ~ Emotional Vibration Chart (aka Map of Consciousness)

This chart is courtesy of the late Dr David R Hawkins MD who through extensive testing and research has mapped the range of human consciousness.

It is officially known as the 'Map of Consciousness,' however we're going to refer to it as the **Emotional Vibrational Chart** simply because that is easier to relate to in terms of health and getting you to focus on the key aspects.

It maps the 17 levels of human consciousness (each labelled as an emotion) on a scale of 1 – 1,000 which represents the levels of energetic vibration connected to the level of consciousness of each of the emotions.

You can see that the really good emotions of love, joy and peace are at the higher vibrational end of the scale and as we all know, feel really good. **That's where we all want to be!**

Conversely, fear, grief, and guilt etc, are at the lower end of the chart and don't feel so good to experience.

### ***Important distinction...***

We can all pretty much experience the whole range of emotions briefly from time to time. For example: we can be deliriously happy or really angry, these are fleeting short term emotional experiences.

However, underlying all of this, we each have an average vibration calibrating somewhere between 0 – 1,000. Dr Hawkins established that around 75% of the world's population is below 200 and only a small handful of people (less than 20) are above 600. Quite surprising!

There have been just a small number who have calibrated at the very top of the scale (enlightenment), here's 3 you may have heard of Jesus, Buddha, Krishna!

Instead of using the phrase average vibration, let's call it **resting vibration**.

**The most important aspect of all ~ the higher your resting vibration, the better you naturally feel!**

Now, it is quite obvious looking at the chart, if you have a higher resting vibration of say love (500) you are generally going to feel much better than if you had a resting vibration of anger (150).

**This whole programme is devised to incrementally raise your vibration through all the actions/habits to continually move you up the scale.**

Although on the surface you could be mistaken for thinking this is just a health and wellbeing programme, it's actually a feel-good programme as the repeated actions/habits are designed to push you up that chart so you vibrate higher and naturally feel better 😊.

The higher your vibration, the more conducive the energetic environment for the cells of your body.

### **Key note:**

You cannot make big leaps in your resting vibration, for example: you cannot just go from say anger to love quickly, you can experience them as individual emotions in quick succession, but you have to go through each level in turn.

The chart is for your intellectual understanding, **your job is to simply focus on the recommended actions and mindset** with each habit as they will incrementally raise your vibration, slowly but surely.

And, more importantly, this isn't a quick fix, it's an incremental action programme for your lifetime (or until even better information is discovered and supersedes any aspect), hence why we want to help you install them as fixed habits.

### **Please burn this into your brain**

It's your thoughts and corresponding feelings that are the driver with all of this as they **emit an energy field which affects everything around you.**

You attract whatever is vibrating on the level you're vibrating at, so **the higher up you get** on the chart (ideally love, joy and peace), **the better the circumstances and events you experience** and most importantly, **the better you feel!** 😊

## **How to Get the Most from this Habit**

David and I created this programme as a 2-step process to learn each habit;

1. First step, **learning**: the information on the habit is to educate you on the importance to your health and **why** you should adopt it.
2. Second step, **doing**: you then know exactly **what** and **how** to do it, until it becomes a deeply ingrained habit.

Hopefully, you'll feel inspired to do the recommended actions until the habit becomes fixed and subsequently automatic for you 😊.

### **It just takes a bit of discipline first**

The best definition of discipline I have heard is 'giving yourself a command and following it.'

The difference between discipline and habit is this;

**Discipline** is making decisions and taking actions using your **conscious mind**.

**Habit** is carrying out actions using your **subconscious mind** as you no longer have to think about it, you just do it.

So, once you have learned and understood the benefits of each individual habit, you just need a bit of discipline to carry them out daily until they become a fixed habit.

...and voila 😊!

## Habits

**We are all creatures of habit** as this is how the unconscious mind operates when we repeat an action enough times.

Scientifically speaking, every single thought or action creates an electrical impulse across the neural pathways of your brain to create what are known as synapses. By repeating specific thoughts or actions you strengthen the neural pathways/synapses until they reach a point where conscious attention is no longer required. It then becomes stored in your subconscious mind and body, as a fixed habit.

If you repeat an action long enough the brain will naturally and unconsciously want to keep doing it and that is the plan!

### **Only 66 days needed!**

There is a lot of talk about a habit becoming fixed after just 21 days, but recent scientific studies show it takes 66 days to fully ingrain a habit subconsciously.

David and I do 'earthing' (habit No 2) every single morning whatever the weather, we have done it for that long (several years) it would feel weird not doing it.

The first week or two is where the most discipline is required. After 66 days, you will have done it that many times, it will feel like the most natural thing in the world. It will be like getting dressed or brushing your teeth, you don't have to think about it, you just do it.

**So, are you ready to get going?**

## Habit No 3 ~ Intermittent Fasting

*“A little discipline with regards to your daily eating window (time between your first and last meal), will produce a fantastic set of health benefits.”*

### Intermittent Fasting

What is Fasting?

Fasting is a voluntary abstention from eating food or drinking (except water, black tea/coffee) for a set period of time for health, weight management or spiritual reasons.

The technical term is intermittent fasting.

This is about a bit of discipline for some big rewards! If you are looking for;

- ✓ **Weight loss/weight management (without the misery of regular diets)**
- ✓ **Eat anything you want (within reason),**
- ✓ **Still have binges**

...this habit is the answer 😊!

**So, what are the main benefits of fasting?**

Here's what the research says about the powerful health benefits of fasting;

- ✓ **Improved body composition**  
Fasting for periods of 12 hours or more has been shown to improve fat oxidation and fat-burning. Fasting has also been shown to increase the body's secretion of human growth hormone, which aids in preserving muscle and burning body fat.
- ✓ **More energy**  
It's been observed that all mammals tend to be active when hungry and sedentary when fed. As counter intuitive as it might sound, energy levels tend to increase during extended fasts, due to a rise in the hormone adrenaline.
- ✓ **Gut health enhancement**  
Fasting can protect the gut against the negative impacts of stress and can lead to increased microbial diversity and elevated rates of fermentation, making your gut and immune system stronger.

✓ **Appetite regulation**

Ghrelin, known as the “hunger hormone,” is responsible for cravings and making us snack when we really shouldn’t (we’ve all done it!). Leptin, on the other hand, is the hormone responsible for telling us that we’re satisfied. Balancing these two hormones is one of the driving factors behind appetite regulation. Fasting has been shown to regulate ghrelin, which allows leptin to normalise and appetite to balance out.

✓ **Immune system stimulation**

Mouse models have shown promising results for autoimmune conditions, specifically Multiple Sclerosis and Type 1 Diabetes. It’s hypothesized that fasting prompts the body to remove and replace damaged cells, as well as stimulate regeneration of damaged tissue.

✓ **Brain health benefits**

Periods of fasting can induce autophagy in your neurons, thus protecting nerve cells from degeneration. Fasting also increases the secretion of the brain hormone BDNF which aids the growth of new nerve cells and the formation of new neural pathways that can improve brain function as a whole, specifically memory and learning.

✓ **Heart health improvements**

Fasting has been shown to improve a number of blood lipid markers indicative of heart health including blood pressure, cholesterol, blood sugar, insulin sensitivity and triglycerides.

✓ **Longevity and disease prevention**

Autophagy is a repair process in which cells cleanse and repair themselves by removing old and damaged proteins and replacing them with new ones. This process has been associated with anti-aging, longevity, and improved metabolic health, and becomes accelerated during periods of fasting. Autophagy has major implications for longevity and anti-aging because it keeps cells young, healthy, and functioning optimally.

## How to do it

For each 24-hour period, you set a period of hours where you don’t eat anything;

Example: Let’s say from 7pm in the evening until 9am the following morning (14 hours). You then consume all your meals within the next period, 9am – 7pm (10 hours).

The above example is my own normal fasting routine.

I have my first meal at 9am and last meal finished by 7pm with 1 meal in between, so I eat 3 meals a day in this 10-hour window.

If you’re a beginner, consider a 12-14 fasting daily fast with a 10-12 hour eating window. Once you’ve become accomplished with daily fasting, you may want to consider a longer fast period, say 16-18 hours.

Of course, the good news is that you sleep for a large part of your fasting window, so it is easier than most people perceive, once you get into the swing of it.

The key is simply to discipline yourself to not eat after your eating period ends (avoid snacking while watching late evening tv!) until it becomes a fixed habit.

Important: If you're looking to lose weight, it's not a good combination to do fasting and reduce calorie intake as it can negatively affect your sex hormones. Just concentrate on consuming your normal intake of calories and your body will take care of the rest.

Allowable consumption: during your fasting period you can have as much water as you like along with tea and coffee (preferably without milk/cream). Herbal teas are good too.

### **What happens to your body?**

During fasting, your body starts activating natural processes that create the benefits described on page 25 and 26.

One of those activations is called ketosis, this is a metabolic process that starts to burn stored fat when it runs out of glucose for energy.

With diet and calorie restriction, you're activating your metabolism to slow down. Now of course, calorie restriction will help you lose weight initially but unless you want to spend your whole life dieting (nobody wants that!), it's not a long-term solution.

Regular intermittent fasting on the other hand, activates multiple bodily processes that are conducive to weight loss/management and multiple health benefits.

### **Fancy a binge?**

Fasting is very flexible; you can just choose your fasting hours to suit your objectives and lifestyle.

Let's say you've got a big social event coming and you want to have a big blow-out with everyone else there.

Just take a day off fasting and start again the following day.

If you want a regular binge, say once a week, just pick a set day and do it. So, let's say you fast with discipline 6 days a week from Sunday – Friday and then on the Saturday you can have anything you want at any time.

So, you can just 'pig-out' all day Saturday, eat anything you want, when you want 😊 as long as you are disciplined on the other 6 days.

Now you'll likely gain a few pounds by the end of that 24 hours, however by getting back to your disciplined fasting routine the next day, your body will very quickly get back to its normal composition.

### **Longer Fasts**

Once you are comfortable with intermittent fasts, you may want to try occasional longer periods of say 24 hours, 36 hours or even 3 days. But baby steps first!

I've personally been intermittently fasting since 2017 and it has helped me with my sleep and bowel movements. Yes, I feel super clean.

I've even done a 5 day fast, it took a bit of discipline as you go through certain physical and mental states along the way, but I felt great for doing it.

### Further Research

I would like to mention something about an Italian doctor called Dr Valter Longo who is the author of the book called "**The Longevity Diet**".

Firstly, I will mention that I found out about Dr Longo by reading books by Dr Michael Mosley's 5:2 diet books.

By far the most powerful story I have read about fasting was in Dr Longo's book, it is a story by Jenni Russell (Times of London, 22<sup>nd</sup> April 2015).

The story is on pages 206-207 and entitled: '**Fasting Transformed Me After Medicine Failed**' very powerful!

### Final word

Once you understand the multiple health benefits of fasting, it's another 'no-brainer' especially if you're looking for weight loss/management and/or general health improvement.

### Recommended habit action steps

- ✓ Start with baby steps, stay flexible and figure out what works best for you.
- ✓ Adopt a consistent **fixed eating window** as part of your daily routine.
- ✓ Try the odd longer fasting period.

***Here's a Snapshot of the Full Vibrant Health Programme (the other 21 habits) ....***

## Vibrant Health Essential Plan

### The 11 Essential Habits...

**Habit 1 ~ This one is a game-changer (most important habit!).** From combating ageing, aiding weight loss, eliminating pains/allergies, becoming more energised and focused, this habit is essential to good health and vitality.

**Habit 2 ~ A beautiful gift from nature.** Utilising an unlimited source of healing energy to nourish your body and boost your immune system. Plugging into this free healing energy is very simple indeed, we've been doing this daily for over 5 years.

**Habit 3 ~ Enclosed**

**Habit 4 ~ The gateway to relaxation & rejuvenation.** You unconsciously do this one already at times, however, when you put your focus on it and do it consciously, the stresses and strains of everyday life will just melt away 😊. Multiple health benefits!

**Habit 5 ~ Use this to fully recharge your body every single day** (2<sup>nd</sup> most important habit). This is the bedrock of good health and vitality that modern day life can play havoc with, if you're not careful. This will positively affect every area of your life when you adopt this with a bit of discipline.

**Habit 6 ~ Will make you feel great** 😊. It's fun, very natural and offers multiple health benefits from stimulating your immune system, effortlessly toning your muscles to filling your blood stream with endorphins.

**Habit 7 ~ Will supercharge your health and immune system.** This is paramount to give you a solid core for your health, vitality, and well-being. This is about taking good care of your inside, so it is reflected outwardly in your energy and vibration.

# The Rules for Being Human

## 1. You will receive a body.

You may like it or hate it, but it will be yours for life.

## 2. You will learn lessons.

Life is a constant learning experience and everyday provides opportunities to learn lessons.

## 3. There are no mistakes, only lessons.

Your development towards wisdom is a process of experimentation, trial, and error. Compassion is the remedy for harsh judgement of ourselves and others. Forgiveness is not only divine, it's also 'the act of erasing an emotional debt'.

## 4. A lesson is repeated until learned.

A lesson will be presented to you in various forms until you have learned it. What manifests as problems, challenges, irritations, and frustrations are more lessons. They will repeat until you learn them, then you go on to the next lesson. To blame anyone or anything else for your misfortune is an escape and a denial; only you are responsible for you and what happens to you.

## 5. Learning lessons does not end.

While you are alive, there are always lessons to be learned. Surrender to the rhythm of life, don't struggle against it. Be humble enough to always acknowledge your weaknesses and be flexible enough to adapt from what you be accustomed to.

## 6. "There" is no better than "here."

When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."

## 7. Others are merely mirrors of you.

You cannot love or hate something about another person unless it reflects something you love or hate about yourself. Be tolerant; accept others as they are and strive for clarity and self-awareness. Strive to truly understand and have an objective perception of your own self, your thoughts, and feelings.

## 8. What you make of your life is up to you.

You have all the tools and resources you need. What you do with them is up to you. Take responsibility for yourself. Learn to let go when you cannot change things. Don't get angry about things.

## 9. Life is exactly what you think it is.

You create a life that matches your beliefs and expectations. You get what you think about and dwell on most of the time, it is a precise universal law called the 'Law of Attraction'.

## 10. Your answers lie inside you.

The answers to life's questions lie inside you. All you need to do is trust your instincts and your innermost feelings, whether you hear them as a little voice or a flash of inspiration.

## 11. You will likely forget all this...but you can remember it whenever you want 😊.
