### Spiritual beings

You may or may not know that you, me, and every other human on the planet are magnificent spiritual beings having a series of human experiences.

### Why, you may ask?

In a phrase... '**soul evolution.**' You like everyone else, chose to be the person you are, along with the path you are currently on in this lifetime, as you knew it would present you with the lessons and challenges that your soul needs to allow it to evolve further.

Most people at this point usually say to me *"If I had a choice, I'm pretty sure I wouldn't have chosen this body and this life!"* 😊

I can assure you that you and everyone else, consciously chose (whilst in the spiritual realm) their current life before they were born. Now unless you are drawn towards the study of spiritual or philosophical pursuits, the chances are you could easily think life is just random and a one off.

To help you put things into perspective, here's a brilliant bit of wisdom entitled 'the rules for being human'...

**1. You will receive a body.**

*You may like it or hate it, but it will be yours for life.*

**2. You will learn lessons.**

*Life is a constant learning experience and everyday provides opportunities to learn lessons.*

**3. There are no mistakes, only lessons.**

*Your development towards wisdom is a process of experimentation, trial, and error. Compassion is the remedy for harsh judgement of ourselves and others. Forgiveness is not only divine, it's also 'the act of erasing an emotional debt'.*

**4. A lesson is repeated until learned.**

*A lesson will be presented to you in various forms until you have learned it. What manifests as problems, challenges, irritations, and frustrations are more lessons? They will repeat until you learn them, then you go on to the next lesson. To blame anyone or anything else for your misfortune is an escape and a denial; only you are responsible for you and what happens to you.*

**5. Learning lessons does not end.**

*While you are alive, there are always lessons to be learned. Surrender to the rhythm of life, don't struggle against it. Be humble enough to always acknowledge your weaknesses and be flexible enough to adapt from what you've been accustomed to.*

**6. "There" is no better than "here."**

*When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."*

**7. Others are merely mirrors of you.**

*You cannot love or hate something about another person unless it reflects something you love or hate about yourself. Be tolerant; accept others as they are and strive for clarity and self-awareness. Strive to truly understand and have an objective perception of your own self, your thoughts, and feelings.*

**8. What you make of your life is up to you.**

*You have all the tools and resources you need. What you do with them is up to you. Take responsibility for yourself. Learn to let go when you cannot change things. Don't get angry about things.*

**9. Life is exactly what you think it is.**

*You create a life that matches your beliefs and expectations. You get what you think about and dwell on most of the time, it is a precise universal law called the 'Law of Attraction'.*

**10. Your answers lie inside you.**

*The answers to life's questions lie inside you. All you need to do is trust your instincts and your innermost feelings, whether you hear them as a little voice or a flash of inspiration.*

**11. You will likely forget all this...but you can remember it whenever you want 😊.**

These universal truths apply to every single human being and are a wonderful little guidance system to keep reminding us of who we are and how it (life) works.

We have also added it to the annex at the end as a single page if you wanted to print it off and have it as a regular reminder of the rules of life!

Let's go deeper...

**Everything is just energy**

Here's a little bit of science which is also important to understand (to lead us into the health stuff); everything in the universe is just energy vibrating at a certain frequency and that includes us as human beings.

Although the body you are sat in, appears to be physical flesh and blood (we are 70% - 75% water), if you viewed it under a powerful enough microscope you would see at a certain level, you are simply trillions of atoms vibrating.

Away from the microscope, you appear to be solid. This is the same with any seemingly solid object, it too is just vibrating atoms that give the appearance of solidity to our senses.

## **We are all born as high vibrational beings**

When we are born, we have the pureness and high vibrations of a new body and soul just beginning its journey. This is the beauty of nature and evolution at work and if you were to measure the frequency, it would be very high indeed.

This is why we are all energetically drawn to new-born babies and small children because they are in a state of high vibration. It is the same for young animals, think puppies or kittens, they're adorable.

You could say every birth is a miracle of nature as each new-born has gone through a natural gestation and incubation period before entering the world independently.

## **Homeostasis**

This high vibrational, optimal state is known as homeostasis, it is the default healthy setting of the body. As long as we have decent habits and generally nourish the body, it should stay in the high vibrational state of homeostasis.

Unfortunately, the vibrational state starts to diminish if we're not careful 😞.

## **The PROBLEM....**

***Modern day life is slowly poisoning us (if we allow it)!***

Whether we like it or not, modern life in the western world particularly, is not conducive to good health, we're negatively bombarded from many directions which starts to lower our vibration and vitality.

The list is long but here are the common ones:

- Processed food
- Food additives (MSG, High fructose corn syrup, aspartame)
- EMF radiation (Wi-Fi, smart metres, devices)
- Air pollution
- Anxiety/Stress/Fear/Negativity/Guilt/Shame
- Vaccinations
- Prescription medication

Each element above has the effect of lowering your vibration and subsequently your health and vitality.

Making a conscious effort to reduce these effects and adopt habits to raise your vibration is the key. More importantly, all the good habits we're suggesting you do, will help do this for you 😊.

## You could also join a tribe for this!

If we all lived in the wild like indigenous people do, we wouldn't need to give health a second thought as we'd instinctively live-in harmony with our surroundings. We'd only ingest natural foods and be away from vibrational lowering foods, devices, and environments.

Tribes people just don't suffer from every day stress/fear/anxiety...hmmm!

## Solution

As we're living in the modern world with many things lowering our natural vibration (which has the potential to lead to multiple potential health problems), we can mitigate this by adopting the right actions which naturally raise our vibration and health.

And we simply do this until these actions become fixed habits, then it's plain sailing 😊.

## Adopting the Right Mindset

Good health is **always** your number 1 priority in life!

### Here's why....

When David and I are giving health presentations, we ask the audience if they could have anything they want (and money is no object), what would they choose?

We usually get replies such as, a large mansion, a super yacht, huge log cabin in the woods, handsome rich partner etc.

We then point out that to fully enjoy any of it, the most important thing of all is to have good health. Of course, you can still have some enjoyment whilst in poor health but to fully enjoy anything in life, being in good health is essential and why it is your number 1 goal in life.

When your health is good, you feel good, your life flows much easier  
and everything is more enjoyable 😊

As my spirit guide Qual says, **“What does your wealth look like, without your health?”** to emphasise the importance of prioritising your health.

### Formula 1 racing car analogy!

I want you to start thinking of your body as though you were operating a high-performance formula 1 racing car.

- To get the best performance out of it you would only put in quality petrol, oils, and lubricants.
- You would make sure you understood how to get the best out of it and drive it accordingly.
- You would only drive it in suitable environments and take special care of it to make sure it always operates with a high performance. You would look after it!

As busy humans, we tend to put any old petrol in it (junk food), never really bother to read the manual to fully understand how it works (life is far too busy!) and we don't really pay much attention to it, until something starts to go wrong (Dr will fix it with a prescription!).

That tends to be the reality of modern life for a lot of people 😞!

### Let's talk about **FEELING GOOD** 😊

We've established that good health is always your number 1 priority in life.

A natural consequence of good general health and wellbeing is **feeling good**. When you feel good, positive, and happy, your vibration rises, and life becomes much easier and that's what this whole programme is about.

Each habit will incrementally raise the vibration of your body each time you do it. You will feel good each time you do a recommended action, sometimes its subtle, sometimes it's obvious, sometimes it's exhilarating, as you'll see 😊.

There'll be a combination of physical, emotional, and psychological wellbeing benefits. The more you do them, the better it is for your general health and the better you'll feel good.

## Complete Health & Wellbeing Models 1, 2 & 3 - IMPORTANT

When it comes to health and wellbeing, most people predominantly associate it with their physical body and their mental state of mind.

Our own philosophy is that we actually have **8 specific areas of health** (YES 8!) which we all need to continually nurture for complete health and wellbeing.

We use 3 visual images (models) to help you understand how everything is connected and how it all fits together physically, emotionally, mentally, and spiritually. These are so important that we've included all 3 models (from the 22-habit programme) in full detail over the next 13 pages.

## Model 1 ~ Your 8 Health Buckets

The image on the following page is our own model that represents the 8 areas, each area is depicted by a bucket that has a very small but continual leak at the bottom. *It's obviously metaphorical, working on the basis that each bucket holds the water that lubricates and makes each of your 8 key areas run smoothly and healthily. However, each bucket slowly leaks and will eventually drain dry if neglected.*

*You job is to continually pay attention and nurture all 8 areas (i.e., keep topping up with water) using the recommended actions/habits, to maintain good health and wellbeing.*

*If you neglect any bucket(s), a part, or parts of you will eventually be running on empty and potentially start to create health problems/issues.*

Each of the recommended habits in this programme enhances at least 1 primary bucket and also enhances multiple secondary buckets.

We'll point this out within each habit, so you fully understand the combined benefit for each action/habit that we recommend.

We'll also add the '8 Health Buckets' image below to the index at the end of this manual so you can print off as a visual reminder (highly recommended) if you wish.

Let's delve further into each bucket and zone...

**The Tangible Zone** (these are external to a degree, and what others can see)

1. **Physical health** ~ the most obvious one, all the essential habits (1 – 11) will help you take very good care of this.
2. **Financial health** ~ we only touch on this one directly with 1 habit (habit 22). It is obviously very important to nurture and look after your finances as we all live in world where we need money to live and thrive.
3. **Vocational health** ~ this is very important indeed, yet so often neglected. It can be your occupation and/or your passion(s) related to your highest values (habit 15 will help you establish your values). Your true vocation in life is what your soul longs to do, an inner urge and therefore it has a strong connection to your spiritual health. If you are doing what truly inspires you in accordance with your highest values, that is your main spiritual path in this lifetime.

It is important that what you do as your vocation (could be main job, secondary business, or hobby) gives you fulfilment, otherwise you can end up suppressing your life away, if you are just doing it for the money. If you are not fulfilled with your main job, you need to look at moving towards a vocation (you can start it part-time) that you would love to do, which is in accordance with your highest values.

It may take some time and planning (baby steps at first) to get there, but it will fill you with energy, enthusiasm, and joy when you align this part of you (neglecting this part is why so many people are lost and unfulfilled and dread Monday mornings!). When you're in tune with your vocational health, your emotional and mental wellbeing and fulfilment, will go through the roof 😊.

**The Feel-Good Zone** (The most important zone, the heart ❤️ of the operation, when you nurture and balance these 2 areas, you will **feel very good** about yourself and that is the number one aim of this whole programme).

4. **Emotional health** ~ this is how you feel at any given time and is the most important bucket of all 8. Every single one of the 22 habits will enhance your emotional health and make you feel that little bit better each time you do it. Habits 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your emotional health. With practise, they will get you feeling good all the time and that's when the magic happens 😊.
5. **Mental health** ~ this is how you internally see yourself and affects your confidence, self-esteem, and self-worth. It is the second most important bucket after emotional health and positively links to all 22 habits. Similar to emotional health above, habits 12, 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your self-image and confidence and make you feel really good about yourself.

When your **emotional and mental health** are in great shape, everything else will fall into place much more easily.

**The Connecting Zone** (as humans, we intuitively want and need to connect with others).

6. **Divine Sexual health** ~ this one isn't exclusively about sex with a partner, it applies to everyone and is about connecting to your divine creative power released through orgasm. It is about tapping into the glorious elixir of life and bathing in the divine life nourishing energy that creates everything in the universe. It is highly recommended to connect regularly with it (regardless of if you are in a relationship or not), habit 11 will help you fully understand and take care of this. You'll learn how it relates to the Emotional Vibration Chart (model 2) in a significant way.
7. **Social/Family health** ~ We all have a deep human need to feel wanted and accepted by other humans. Having a social circle of friends, work associates, like minded advocates and close family bonds are all important for your mental and emotional wellbeing. It is important to regularly connect and nourish these relationships to feel complete as a human being. Habit 21 will help you with this.
8. **Spiritual Health** ~ As the saying goes "for what profits a man if he gains the whole world and loses his soul?" Understanding you are a spiritual being having a human experience and acknowledging/connecting with a higher power is very important indeed for your spiritual health and your integrity as a human being.

**Also...**to feel genuinely fulfilled with your life, your spiritual health needs continually nurturing. Having a higher purpose/vocation (in line with your highest values) with the intention of benefitting fellow human beings and advancing humanity in some way (no matter how big or small), is nourishing for your soul and spiritual health. Taking care of your spiritual health will also help to keep you grounded and more fulfilled, habits 9, 12 – 15 and 17 - 21 will help you with this.

### Model 2 ~ Emotional Vibration Chart (aka Map of Consciousness)

This chart is courtesy of the late Dr David R Hawkins MD who through extensive testing and research has mapped the range of human consciousness.

It is officially known as the 'Map of Consciousness,' however we're going to refer to it as the **Emotional Vibrational Chart** simply because that is easier to relate to in terms of health and getting you to focus on the key aspects.

It maps the 17 levels of human consciousness (each labelled as an emotion) on a scale of 1 – 1,000 which represents the levels of energetic vibration connected to the level of consciousness of each of the emotions.

You can see that the really good emotions of love, joy and peace are at the higher vibrational end of the scale and as we all know, feel really good. **That's where we all want to be!**

Conversely, fear, grief, and guilt etc, are at the lower end of the chart and don't feel so good to experience.

### ***Important distinction...***

We can all pretty much experience the whole range of emotions briefly from time to time. For example: we can be deliriously happy or really angry, these are fleeting short term emotional experiences.

However, underlying all of this, we each have an average vibration calibrating somewhere between 0 – 1,000. Dr Hawkins established that around 75% of the world's population is below 200 and only a small handful of people (less than 20) are above 600. Quite surprising!

There have been just a small number who have calibrated at the very top of the scale (enlightenment), here's 3 you may have heard of Jesus, Buddha, Krishna!

Instead of using the phrase average vibration, let's call it **resting vibration**.

The most important aspect of all ~ **the higher your resting vibration, the better you naturally feel!**

Now, it is quite obvious looking at the chart, if you have a higher resting vibration of say love (500) you are generally going to feel much better than if you had a resting vibration of anger (150).

This whole programme is devised to incrementally raise your vibration through all the actions/habits to continually move you up the scale.

Although on the surface you could be mistaken for thinking this is just a health and wellbeing programme, it's actually a feel-good programme as the repeated actions/habits are designed to push you up that chart so you vibrate higher and naturally feel better 😊.

The higher your vibration, the more conducive the energetic environment for the cells of your body.

### **Key note:**

You cannot make big leaps in your resting vibration, for example: you cannot just go from say anger to love quickly, you can experience them as individual emotions in quick succession, but you have to go through each level in turn.

The chart is for your intellectual understanding, **your job is to simply focus on the recommended actions and mindset** with each habit as they will incrementally raise your vibration, slowly but surely.

And, more importantly, this isn't a quick fix, it's an incremental action programme for your lifetime (or until even better information is discovered and supersedes any aspect), hence why we want to help you install them as fixed habits.

### **Please 'burn' this into your brain**

It's your thoughts and corresponding feelings that are the driver with all of this as they **emit an energy field which affects everything around you.**

You attract whatever is vibrating on the level you're vibrating at, so **the higher up you get** on the chart (ideally love, joy and peace), **the better the circumstances and events you experience** and most importantly, **the better you feel!** 😊

### **Model 3 ~ Your Mind, Body, Spirit Connection Chart**

As the advanced habits are designed for your mind and spirit, the following chart will help you fully understand how it all connects.

Once you fully grasp the core elements and how they interact, you'll have the blueprint and the know-how of how to solve any mental problems/issues and create anything you want 😊.

### **This is big stuff!**

You and everybody else are born with all the faculties required, its understanding on a deep level how they work and then using the recommended tools and actions in the advanced habits to make them work harmoniously for you.

**The bad news...** these faculties can create misery in your life if just left to their own devices.

**The good news...** you can use these same faculties to clear any mental debris and create a life of absolute joy, fulfilment, and wonder, it is entirely up to you!

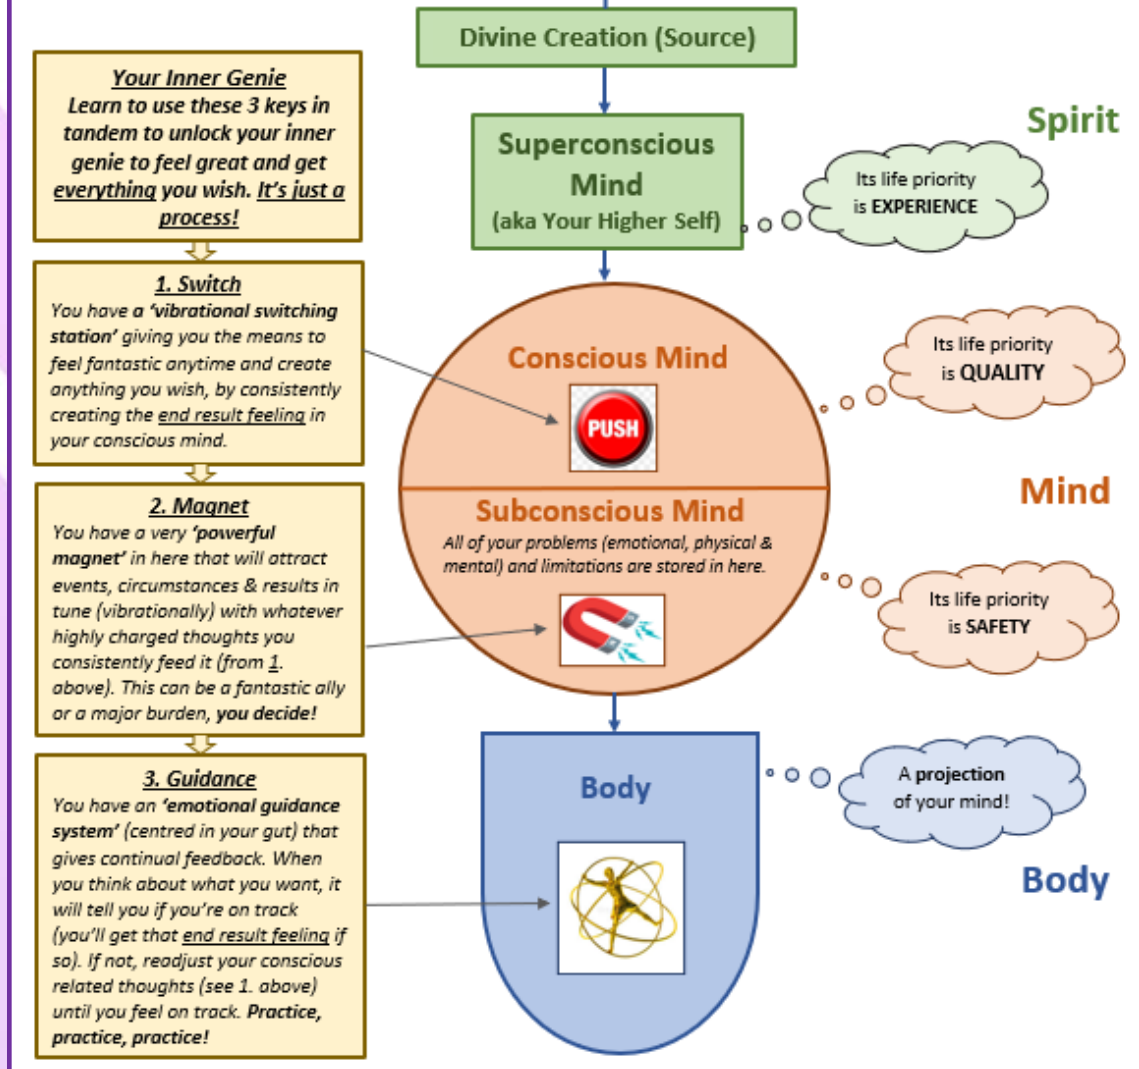

It just takes **understanding** and **discipline** until it becomes habitual.

Here's the chart...

# Your Mind, Body, Spirit Connection

You have a body and a brain existing in the material world, a soul in the spiritual world and a mind in both, **you're a multi-dimensional being.**

Let's add all the details...

I'm going into a lot of detail here as this is **very important information to understand, as nobody ever teaches us this stuff.**

When you do understand the interactions between the mind, body, and spirit, it's like having the **rule book** to get the best out of your life!

**Divine creation (Source)** ~ this invisible power has multiple names, some other common ones are divine intelligence, universal intelligence, divine consciousness, all that is, we prefer to refer to it as **source**.

**This power is the fabric of the universe which pervades everything and thus everything originates from and returns to it, including us as humans.**

We know from quantum mechanics that this divine power connects everything in the universe. Some people call it home as we are instinctively drawn back there on some level.

**Superconscious Mind** ~ this is more commonly referred to as 'your higher' self and is the connection between divine source and your subconscious mind. It is the programme designer for your life, it is very wise and knows what is best for you.

Its priority is **experience** of being a human as it knows you came here to experience the wonderful duality of the 3<sup>rd</sup> dimension to learn the lessons you agreed to (prior to incarnation), to evolve your soul.

It doesn't distinguish between good and bad circumstances the way you consciously do. It knows all circumstances, no matter how you perceive them, are ultimately beneficial for your experience and soul growth and that you asked for these experiences on some level prior to birth.

In its wisdom, it knows that if you weren't equipped with the faculties to deal with an experience, you wouldn't have it in the first place.

**Conscious Mind** ~ This is obviously where your awareness is (i.e., your thoughts and your will) whilst you go about your day making multiple decisions.

The key priority of your conscious mind is **quality** of life as you undoubtedly wish for the very best of circumstances and make choices as best you can, that will give you the best life within your general capability.

Your conscious minds can handle around 40 to 50 bits of information per second but most of the time its nearer 10 – 15 bits per second.

**Subconscious Mind** ~ 'This is the 'biggie' and where most of your problems and real power are stored!'

We're going deep...

Your subconscious mind is a vast storage base that will store everything your 5 senses consciously and unconsciously experience in your lifetime.

At birth it also holds information on your ancestors (going back several generations) and their issues which you brought in, through your DNA.

It has the knowledge/programming to efficiently operate and regulate all of your bodily systems (known as autonomic nervous system) 24 hours a day, every day, as it never sleeps. It processes around 11-15 million bits of data every second.

Apart from knowledge of your ancestors and the programmes/knowledge to efficiently operate and regulate all of your systems, it is otherwise, pretty much a blank slate at birth, ready to soak up **everything** (to use as/when/if required).

## Then...

As you go through life, every thought, action, and deed you ever experience, whether conscious of it or not, gets soaked up and stored in here too, let's call it **data**.

All the programming (over your lifetime) from your parents, teachers, bosses, co-workers, friends, partners, strangers, media, TV etc, all gets stored in here too.

Your belief systems, negative experiences and trauma's all get stored in here too. The more emotionally charged the experience, the bigger the imprint on your subconscious mind!

More emotionally charged = higher energy = bigger imprint!

Its priority for you is your **safety** and **security**. It basically runs the show based on the data it holds. Whatever the dominant thoughts and programmes you have soaked up; will generally dictate how you act and what you experience in your life, because...

**All** of this information constantly going in forms your **unconscious blueprint** from which all of your decisions and experiences stem from.

This bit is crucial to understand!

...you can only make decisions based on the **quality** of data you hold.

Metaphorically speaking, it operates similar to a computer meaning that the outer experience (how you consciously perceive it) is a reflection of the quality of the data in the operating system (your subconscious mind) that's running all your programmes.

Garbage In, Garbage Out (GIGO) as they say in computer terminology, but it's up to you ultimately, what goes in there.

## Here's the (potential) problem...

Your mind with all its thoughts, creates corresponding emotions (feelings) in the body. The core feelings we all hold are the cumulative effect of thousands of thoughts.

As emotional beings, we become addicted to the chemically induced feeling (emotion) in our bodies. This is great if you are very positive and experience lots of nice emotions (habits 17 – 19 will help you achieve this 😊).

However, if the feelings are generally negative, most people tend to suppress these feelings by pushing them back down and then escape from them by using some means of diversion (food, drink, sex, drugs etc).

This suppressed energy accumulates over time and seeks expression through physical, emotional, and behavioural disorders.

In a nutshell...

**Pretty much all of your problems (physical, emotional, and mental) originate from past trauma's, negative thought patterns and associated suppressed emotions (feelings) stored in your subconscious mind.**

All this stored information plus the ongoing information you absorb from your environment will affect your beliefs which will affect how you think, feel, and perceive reality.

### **Hard wiring...**

If you run a certain thought through your mind enough times, let's say anxiety, you hard wire the associated emotional feeling into your cells over time and then become chemically addicted to that feeling (even though it's **not** a good feeling).

Your emotions are the end product of past experiences, but you **can't** create a new future holding onto the emotions of the past.

**All of your suffering is caused by your thoughts.**

So negative thoughts create associated low vibrational emotions which become hard wired into your body and you become addicted without realising (you subconsciously create circumstances to get more of it), even though it is something you don't want.

If you don't know how to consciously break this negative thought/emotion cycle, the thoughts will continue the suffering.

### **The good news...**

You can release and heal these underlying issues/problems by working with your subconscious, habits 13 and 14 cover this 😊.

Then you can rewire your brain with positively charged thoughts and hard wire associated high vibrational emotions that make you feel really good, habits 17 – 19 cover this 😊.

You then can become addicted to the feel-good emotions and **that's what you want!**

This is very big stuff, and you'll see its value as we progress through the habits.

### **Let's just touch on the mechanics for a second...**

***IMPORTANT*** I want to make a clear distinction, so you understand how issues and problems are stored in your subconscious mind.

*There are universal laws which govern everything, one of these is called 'The Law of Cause & Effect' which I'm sure you've heard of. It states that every effect in the universe has an underlying cause that created it.*

So, when you experience any physical, emotional, or mental issue/problem in your life, you are experiencing an **effect**. If this was caused by obvious external source (e.g., you got stung by a bee on the arm and it swelled up) you know what the cause is.

However, if you are experiencing an issue/problem that has no obvious cause, it's almost certain the underlying cause, is suppressed emotional energy from the repeated thought patterns (based on data/programming) in your subconscious, seeking expression.

When I say not obvious, what I mean is that it's not obvious as to the cause, based on the effect that you're experiencing. Examples;

... **You are feeling down and depressed** but there's no logical reason as your life is reasonably comfortable by normal standards.

... **You feel fatigued most of the time**, but your life is pretty normal.

... **You have aching in your joints**, but you don't really do anything excessive to create this.

... **You are very irritable with big mood swings** for no obvious reason.

Many major ailments/diseases such as cancers, autoimmune diseases are generally manifestations resulting from a combination of poor health choices (or lack of awareness) and suppressed emotional energy from negative data programmes, repeatedly playing in the subconscious over a period of time.

I don't want to get into a medical debate but do want you to understand two key aspects;

- i) issues like cancers and diseases are effects.
- ii) the medical world pretty much only deals with treating effects as that's the way it generally operates.

Now of course, medical expertise is very important indeed. However, we're going to give you the preventative knowledge and the tools to continually input positive subconscious data/programming and most importantly, **release** any negatively charged emotional energy, before it can create any issues.

Prevention is better than the cure, as they say!

Its ultimately about mental freedom so you feel lighter and happier 😊.

### **The grand illusion (that will blow your mind!)**

Final piece of the subconscious element...

There is no '**out there**', everything comes from within you!

Quantum physicists will say that you are both the observer and the observed. In other words, when you believe you are looking at the outside world, you are actually observing yourself 😊.

Crazy, right? Here's how...

The cerebral cortex in your brain interprets the input from your 5 senses.

Your 5 senses turn all sensory input into electrical impulses for the neocortex to decode and interpret.

So, your brain (neocortex) is observing the electrical impulses that are also in your brain. **It's all inside you** 😊.

There is **no** outside, what you perceive as reality is merely your brain interpreting the electrical impulses (also inside your brain) from your senses.

You create your own reality from inside you, based on your thoughts, beliefs, and perceptions, that are all stored in your subconscious mind!

...And when you understand how to change something you don't want and how to attract something you do want, you hold all **the keys to the kingdom** 😊!

It's all in the advanced habits.

**Change your programming** (that's what we're going to help you do), **you change your life!**

**Body** ~ This one is simple (you'll be pleased to know 😊).

As you will have seen with habit 2 (earthing), your body is naturally in tune with mother earth as it is biologically grown following a natural seed/egg fertilisation process.

The body comes into its own existence at birth in a state of very high vibration (hence why we're all naturally drawn to babies as there is a pureness in their energy field). The body is newly grown through the miracle of nature and the soul has recently entered into the body from a higher (spirit) dimension, ready to begin a new (life) journey in the 3<sup>rd</sup> dimension.

It has its own DNA blueprint which dictates what you look like, your size, shape, characteristics, and personality.

Now you're ready to make sense of and explore the world. Your mind makes the decisions (both consciously or unconsciously), and your body follows.

Then as you go through life and start interacting with the world, all the data from your experiences start to imprint on subconscious mind, which subsequently begins to shape your world and your perception of it.

Your body is both an instrument of your conscious (it carries out your commands) and a projection of your subconscious mind as the way you act, feel, communicate, look, dress etc, is a reflection of it.

## The 3 keys to Your Inner Genie – (this is the life-changing bit 😊)

Although your subconscious mind can take you to some dark places if left unchecked, you also have an inner genie that can make all of your dreams come true, but more importantly, make you feel happy and fulfilled as a **default setting** 😊.

As previously mentioned, the same faculties (Your Inner Genie) that creates all your issues/problems, also makes your dreams come true. The only difference is **how you programme it**, to get what you want!

Are you ready? This is powerful!

The 3 keys to Your Inner Genie use basic metaphors to simplify the process. Here goes (in a logical order for understanding purposes)...

### Key 2 ~ The Magnet (in your subconscious mind)

Your subconscious mind can be likened to a powerful **magnet**. In the subconscious section in the previous pages, we discussed how highly energised negative suppressed emotions seek outwardly expression that attract negative circumstances (problems and issues etc) as that's the vibration it is being **'charged up'** with.

The magnet can also be imbued with highly charged positive emotional energy which then attracts very positive circumstances and events.

Think of your subconscious mind as just a powerful magnet waiting for your emotional input to charge it, so it can attract to you, **corresponding events and circumstances that are in vibrational alignment** with the emotional energy you consistently give it.

Its ready and waiting to give you what you wish, you just need to emotionally charge it accordingly, through your conscious thoughts (key 1)!

### Key 1 ~ The Switch (in your conscious mind)

You are emitting a vibrational energy at all times, as you already know. Your conscious mind has a vibrational switch in it that enables you to consciously change your vibration in a split second by changing your thoughts. Let me give you a couple of examples...

*i) Imagine you're having a really bad day at work, and it feels like the world is against you, you feel miserable. Your partner then rings you and says "great news, I just checked last night's lottery numbers and we've won £111,000.00 😊"*

*ii) You've just finished packing for your annual holiday, the whole family are really excited, the taxi is picking you in an hour and then the phone rings, It's the travel operator calling to say they've just gone into administration and have been forced to cancel all holidays with immediate effect!*

In both scenarios, what happened to your vibration?

**In scenario i)** you went from a low energy vibration to an ecstatic vibration in an instant.

**In scenario ii)** you went from an excited high vibration to a despondent low vibration in an instant.

As you consciously processed the information in both scenarios, you instinctively switched your vibration according to your perception of events.

The key element here is that **you can consciously choose and change your vibration by simply changing your thoughts.**

So, as you have a powerful magnet (your subconscious) that will attract whatever you emotionally charge it with, it would make absolute sense, to charge it with the positive emotion of **what you want!**

The **switch**, like the magnet is metaphorical, it signifies you consciously switching on the right emotional vibration to attract whatever it is you want.

We'll cover how to do this within the advanced habits.

### Key 3 ~ Emotional Guidance System (in your gut)

This is simply the emotional feeling in your body, which is generally strongest in the gut.

To imbue the magnet with highly charged emotional energy, you have to use your feelings to find the sweet spot.

So, you consciously choose circumstances you really want, so just the mere thought of them makes you very excited indeed (you feel highly charged positive emotions). You basically tweak the thoughts as necessary to really dial up the emotions, so you feel absolutely wonderful as though you already have it.

That's it, you're programming the magnet, so it starts to emit that excited frequency to attract to you events and circumstances in line with what you want, to bring it to you.

You need to do this continually (i.e., think about it all the time or as often as you remember), to keep the magnet charged up with highly emotional positive energy.

You are basically turning the emotional feeling (of having what you want) it into your default setting, until you get what you want.

If you're on track each time you think about it, you should get the same original feelings in your gut, this confirms if you're still on track.

If the feelings are not quite hitting the spot, you need to consciously tweak your thoughts to reignite the original excited feeling. You do this continually.

Your feelings are your **emotional guidance system.**

When you think about what you want, your feelings will tell you if you're on track or not, so you can adjust, as necessary to keep that powerfully charged emotional feeling.

## Summary

The 3 keys of **Your Inner Genie** are what is known as the Law of Attraction.

The magnet (key 2) works automatically with whatever emotional vibration you feed it; you don't need to do anything with it.

You only have to consciously decide what you want and how it will make you feel when you have it (key 1) and then use your emotional guidance system (key 3) to check if you're on track and adjust accordingly, until you have it.

### All you are doing is...

Using your conscious mind to decide on what you want and place your focus on a scenario where you already have it (key 1) and then paying attention to the corresponding feelings in your gut (key 3) to make sure it feels wonderful (as though you already have it).

Whilst doing this process, you simply tweak the experience (as necessary) in your conscious to really tune up the feeling, so it feels amazing, as though you already have it.

That's it, you don't need to do anything with key 2 as that will work automatically based on the electromagnetic (electro = thought, magnetic = feeling) vibration it is receiving from the combination of keys 1 & 3.

The advanced habits are designed to naturally help you use these 3 keys 😊.

The Law of Attraction module will walk you through this process in detail.

## How to Get the Most from this Habit

David and I created this programme as a 2-step process to learn each habit;

1. First step, **learning**: the information on the habit is to educate you on the importance to your health and **why** you should adopt it.
2. Second step, **doing**: you then know exactly **what** and **how** to do it, until it becomes a deeply ingrained habit.

Hopefully, you'll feel inspired to do the recommended actions until the habit becomes fixed and subsequently automatic for you 😊.

## It just takes a bit of discipline first

The best definition of discipline I have heard is 'giving yourself a command and following it.'

The difference between discipline and habit is this;

**Discipline** is making decisions and taking actions using your conscious mind.

**Habit** is carrying out actions using your subconscious mind as you no longer have to think about it, you just do it.

So, once you have learned and understood the benefits of each individual habit, you just need a bit of discipline to carry them out daily until they become a fixed habit.

...and voila 😊!

## Habits

**We are all creatures of habit** as this is how the unconscious mind operates when we repeat an action enough times.

Scientifically speaking, every single thought or action creates an electrical impulse across the neural pathways of your brain to create what are known as synapses. By repeating specific thoughts or actions you strengthen the neural pathways/synapses until they reach a point where conscious attention is no longer required. It then becomes stored in your subconscious mind and body, as a fixed habit.

If you repeat an action long enough the brain will naturally and unconsciously want to keep doing it and that is the plan!

## Only 66 days needed!

There is a lot of talk about a habit becoming fixed after just 21 days, but recent scientific studies show it takes 66 days to fully ingrain a habit subconsciously.

David and I do 'earthing' (habit No 2) every single morning whatever the weather, we have done it for that long (several years) it would feel weird not doing it.

The first week or two is where the most discipline is required. After 66 days, you will have done it that many times, it will feel like the most natural thing in the world. It will be like getting dressed or brushing your teeth, you don't have to think about it, you just do it.

**So, are you ready to get going?**

## Habit No 19 ~ Programming for Success

“As you’re the director and star of the **movie of your life**, it’s completely up to you what happens!”

### Programming for Success

This is part 3 of your high vibe triangle 😊!

Habits **17**, **18** and **19** are all closely linked to get your body, mind and expectations all working together in a high vibrational (feel good) way.

Habit 17 is to condition your body to feel good, habit 18 is to condition your mind to naturally expect the best, so they both raise your vibration and makes you feel good.

Habit 19 builds on those two foundations by identifying and writing down what you would to like to feel/experience, so the universe knows exactly what you want.

It will condition your mind and body to experience events playing out in an ideal/perfect way (prior to the actual event), by **mentally and emotionally rehearsing them**.

This is for everything from small daily experiences to big events in your life, whatever is important to you.

### 1. Scripting the outcome

This process is for the really important events/goals in your life.

It is often referred to as **scripting** as you are effectively writing the script for an important upcoming event in your life.

As you know, you communicate with the universe via your vibrations (from your thoughts and feelings) that you continually broadcast and in turn, the universe gives you back events and circumstances in line with your vibration.

So, if you have an important event coming up, you obviously want it to go a certain way, but rather than leave things to chance, you can mentally rehearse how you would like it to play out, so you **evoke the feelings you would like to feel** from the imagined ideal outcome.

By doing this, you are telling the universe **what you want to feel** by broadcasting (via associated thoughts and intense good feelings) the vibrational outcome you would like.

### **Start by writing it down...**

Pick an important event or big goal that you would like to happen.

Write down a detailed script of how you want everything to go (perfect scenario). Just imagine you are writing the script for a movie director to direct your scene (obviously you are the central character here) and you need to convey all the emotion of it.

*N.b. As described in habit 13, the process of writing by hand engages the 4 key parts of your brain to enhance the emotional elements of it (very important!).*

Then you rehearse the scene/event it in your mind whilst feeling how you want it to feel throughout the scene/event. Here's an example;

Let's say you have **a romantic date** scheduled; the script may go something like this...

*As I gaze in the bedroom mirror, I look and feel fantastic, I think to myself "he's going to be blown away 😊!" As I enter the venue, I notice in my peripheral vision lots of people staring at me in admiration, I feel very hot indeed!*

*I spot my date waiting by the bar and head towards him, he looks up, sees me and his jaw just drops to the floor! He seems in awe of my appearance and tells me how stunning I look. I've never felt so attractive!*

*We sit down to the most fantastic dinner, the conversation just flows, we laugh and share many stories. He's kind, thoughtful, romantic, funny, it was effortless talking to him, it was though we were in a world of our own and no one else was in the room.*

*He is everything I could wish for in a partner, we spent the whole night staring into each other's eyes, this is the 'first date' I'd always dreamed of. Although I didn't want the night to end, we eventually kissed goodnight and arranged to meet again in 2 days. As he was walking away, he kept turning his head to look and smile at me, which made me feel absolutely wonderful 😊.*

### **Now rehearse it**

As you rehearse it, pick the thoughts, feeling and behaviours you want and **feel all the good feelings/emotions as intensely as you possibly can.**

**You go through it in your mind as though it is happening to you NOW. You live as though that reality is happening in the present moment.**

**Just lose yourself in it**, tweak it and fine tune it as much as you want, to really ramp up the emotions.

Your aim is to feel absolutely wonderful as you rehearse the experience in your mind, it's as though your body is going through the experience for real (your subconscious mind doesn't know the difference between reality and vividly imagined scenarios).

When it comes to the actual event, there will be a familiarity in your mind and body as you've vibrationally already experienced the thoughts and feelings/emotions you desire.

This will make the event much easier when it happens and just as importantly, you've already put out a phenomenal vibration to the universe, who will reciprocate a matching energy.

It's just like rehearsing for a play or say a presentation, if you've rehearsed it multiple times, your level of confidence and belief increases dramatically, and it will show in your body language and energy.

### How many times should you rehearse it?

All the time 😊!

This is crucial to understand...

If the event is very important to you and you've written out the script of your perfect scenario and ramped up the emotions that make you feel absolutely wonderful as though its already happening, **why wouldn't you want to rehearse it all the time?**

You feel fantastic when you rehearse it which means you're continually putting out a corresponding vibration to the universe that is saying **'this is what I want!'**

It's a win, win scenario 😊, you go around feeling fantastic in a phenomenal state of vibration.

I know they told you in school not to daydream, but we're giving you permission to daydream as much as you want 😊, if you use it for this purpose!

You can daydream (or call it fantasise if you prefer!) about it in just a few seconds, so rehearse, daydream away, as much as you like.

### Here's the caution though...

When the event comes, if you've rehearsed it very well and put yourself into a fantastic vibration, you're going to be emitting this vibe to those around you.

However, you still have to **detach from the outcome** (remember habit 13!), although you've rehearsed how you wish it to be and feel, you can't control other's actions.

Your job is to vibrate high by feeling as good as you can (as though the outcome has already happened) but still go with the flow.

So, if you think that Paul has to be 'the one' because that's how you rehearsed it, you will likely try and force the situation (easily done).

What you don't know is that although Paul seems like the obvious one, his vibration might be slightly out of alignment with you, however Luke who you are going to bump into at work tomorrow, is in perfect vibrational alignment with you, he's single, even better looking and is already hoping to get your number!

This is where the phrase **"Man plans and God laughs"** comes from, as you don't know what the universe has in store for you.

When things line up vibrationally for you, you'll know it's right, you'll feel it in your gut.

Your job is to **get into the best emotional feel-good vibration** you possibly can as often as you can, **let go** (of attaching to any predetermined outcomes) and **just allow events to flow**.

Don't ever put a deadline on events, feel as good as you possibly can when you think about it and let the universe decide who/what comes into your reality and when the right time is. You'll instinctively know.

This process is simply using the law of attraction. Play around with it, once you really get into it, you'll find it very enjoyable 😊.

Feeling good/great/wonderful is always your highest Priority at all times!

### Influencing your day

This process is more for your upcoming day-to-day events that you would like to go very favourably for you.

It's a combination of the positive expectation tools from habit 18 and scripting. Although, you don't need to write it down, unless you want to.

Let's say you have an important business presentation due tomorrow in a different town that is an hour's drive away.

You identify the key elements of your day that will have the most impact, this might be;

1. The drive there, getting parked and finding the premises.
2. Walking into the reception, making a good first impression.
3. Giving a good presentation that engages everyone present.
4. Getting a commitment to work together (your objective).

What you now do, is create a scene for each one in your mind or on paper (choose what works for you) going exactly as you would like. For example...

**1. You imagine...** a smooth enjoyable journey where the traffic is flowing nicely, you make good time, and all the other motorists are very courteous. You find the location very easily and there are plenty of parking spaces to choose from.

**2. You imagine...** walking into the reception and immediately feel very welcome as you are made to feel important. You are introduced to the key people who are very engaging and seem very keen to hear you present.

**3. You imagine...** giving a very smooth and confident presentation that completely engages your audience, you've effectively got them hanging on your every word. At the end of the presentation, you get a rapturous applause, and everyone is smiling and very warm towards you.

**4. You imagine...** the key decision makers are very keen to work with you immediately and are ready to sign the agreement. Your walk out of the building feeling 10 foot tall and have a very pleasant drive home feeling fantastic.

You can rehearse this in a few minutes, you identify the **key components** that signify the individual success's (i.e. arriving on time, very warm welcome, engaged audience, lots of smiles, agreeing the deal, walking out feeling 10 foot tall).

Just as with the scripting, you create the scene in your mind and add the emotion of how you want it to **feel** on the day.

As usual, tweak it and ramp up the emotion so it **feels like it has already happened** when you think about it.

### Suggestion

At the end of each day whilst putting a to do list together or planning your diary for the following day, use the 'influencing your day' process to run through the day.

Imagine it going exactly how you would want it, light traffic, everyone smiling and courteous, the day flows beautifully, and you come home full of energy and satisfied 😊.

You will influence events on a quantum level but most importantly (I know I keep labouring the point 😊) **you will feel good** which **raises your vibration** and by law, you'll attract better circumstances into your life.

The accumulative effect of developing this habit will make a significant difference to your life once you get into the habit of rehearsing the emotional 'feel-good' outcomes that you want.

There'll come a point with the combination of these 3 habits (17/18/19), where you'll only ever feel/think/expect the best in all circumstances and by universal law, you'll then attract/experience the best circumstances frequently 😊.

### Negative experiences (it's just an illusion)

If you experience any negative events along the way, you should get excited!

This is **expert level feel-good...**

Let's now continue the earlier 'influencing your day' example.... Now on the way to the important presentation, your car breaks down and there's no way you'll make it that day.

Most people would get upset and frustrated but **you're going to get excited!**

Here's why...

*You've planned and rehearsed the presentation so well; you feel and vibrate like you've already got the sales contract that you really desire.*

*Now that you've broken down, you can't pitch today and know that the chances of getting another pitch/sale with that company is very slim.*

*Anyway, you get towed to a car dealership so your car can be repaired. Whilst sat in the waiting room you strike up a general conversation with the other person in the room.*

*You're chatting for a while when they ask what you do. You explain your expertise and what you offer when they say, **"I run a big company and we're looking for just that service, would you be able to come to my office sometime and explain it further."***

*This person already likes and trusts you and has pretty much made the decision to have your service as long as the deal is fair.*

## Bingo!

You have been putting out such a good vibration that you attracted the breakdown to help you land the bigger fish (the universe works in mysterious ways 😊!), that is how vibration, and the law of attraction works!

If you insist on events going to your precise expectation, you'll get angry and frustrated if something curtails it (remember detachment from habit 13!).

But if you get excited instead in anticipation of what the universe has in store for you, you'll keep your vibration very high and who knows what you'll get!!!

This of course takes practise and is at the 'expert level' but makes absolute sense when you think in terms of vibration and using the law of attraction.

This is what the elite do and teach their kids, they understand vibration and the law of attraction.

Practise getting excited at what others would deem as negative, it will freak them out 😊!

## Final word

From your big dreams to the everyday events that matter to you, mentally rehearse the outcome you sincerely want and bathe in the associated feel-good emotions, as though its already happened.

# The Rules for Being Human

## 1. You will receive a body.

You may like it or hate it, but it will be yours for life.

## 2. You will learn lessons.

Life is a constant learning experience and everyday provides opportunities to learn lessons.

## 3. There are no mistakes, only lessons.

Your development towards wisdom is a process of experimentation, trial, and error. Compassion is the remedy for harsh judgement of ourselves and others. Forgiveness is not only divine, it's also 'the act of erasing an emotional debt'.

## 4. A lesson is repeated until learned.

A lesson will be presented to you in various forms until you have learned it. What manifests as problems, challenges, irritations, and frustrations are more lessons. They will repeat until you learn them, then you go on to the next lesson. To blame anyone or anything else for your misfortune is an escape and a denial; only you are responsible for you and what happens to you.

## 5. Learning lessons does not end.

While you are alive, there are always lessons to be learned. Surrender to the rhythm of life, don't struggle against it. Be humble enough to always acknowledge your weaknesses and be flexible enough to adapt from what you be accustomed to.

## 6. "There" is no better than "here."

When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."

## 7. Others are merely mirrors of you.

You cannot love or hate something about another person unless it reflects something you love or hate about yourself. Be tolerant; accept others as they are and strive for clarity and self-awareness. Strive to truly understand and have an objective perception of your own self, your thoughts, and feelings.

## 8. What you make of your life is up to you.

You have all the tools and resources you need. What you do with them is up to you. Take responsibility for yourself. Learn to let go when you cannot change things. Don't get angry about things.

## 9. Life is exactly what you think it is.

You create a life that matches your beliefs and expectations. You get what you think about and dwell on most of the time, it is a precise universal law called the 'Law of Attraction'.

## 10. Your answers lie inside you.

The answers to life's questions lie inside you. All you need to do is trust your instincts and your innermost feelings, whether you hear them as a little voice or a flash of inspiration.

## 11. You will likely forget all this...but you can remember it whenever you want 😊.
